

Business case

Name:	Dhruval Patel
Community (UN SD goal):	Zero Hunger & Good Health and Well Being
Date:	05-11-2021

Proposed Project	Food O Connect
Date Produced	05-11-2021
Background	There are a lot of people who didn't receive food and many homeless people also not able to get the food in a regular manner. And this is the scenario of the whole world. In each nation there is the community of the people like this who doesn't able to get food. And they are generally, Old-age, handicap and low backward class people who faces such condition.
Business Need/ Opportunity	Through this project a lot of opportunities will be provided for the people who want to help this community. Also help NGOs to manage their resources and use them in more efficient manner.
Options	The potential approach is to develop the initial stage and get the overview of that and made publicly and see the response.

Cost-Benefit Analysis

Proposed application doesn't consist of cost instead it consist a time to develop. Moreover, it is beneficial to the end-users who are in search of food as well as NGOs for organizing their resources more efficiently.

Recommendation

There were no such kind of platform had been developed previously.
